1. These plans must be read in conjunction with endorsed town planning plans. For details of landscaping, paved areas, colours, and external finishes, refer to town planning plans.
2. Please be aware of existence of Landscape plan, Arborist report, energy rating and other reports that are not part of these plans but form part of building permit. There may be additional requirements for tree protection zone (see Landscape Plan for details)
3. The position & depth of all existing underground services (e.g. drainage, phone, electricity, sewer etc) to be determined prior to commencement of construction and any discrepancies brought to the attention of this office. Information from "1100 DIAL BEFORE YOU DIG" service & relevant authorities should be obtained in writing before any construction is commenced.
4. No part of building or footing to encroach over boundary line, re-establishment survey must be conducted prior to commencement of any work.
5. Architectural plans are not to be used as shop drawings for the manufacturing of truss or any other part of framing (walls, floor joists etc.). All manufacturing to be undertaken by site measure. STRAIT-LINE Builders & Drafters will not be held responsible for any discrepancies on dimensions shown.
